OBJECTIVE

BS Entertainment and Multimedia Computing student at De La Salle Lipa specializing in UI/UX design, web experiences, 3D art, and AI prompt engineering, actively seeking challenging professional work to bridge academic knowledge with real-world application. I possess a strong foundation in user-centered design, interface prototyping, visual storytelling, and interactive digital experiences gained through academic projects and self-directed practice. Skilled in Figma, Framer, Blender, Photoshop, and AI-powered creative tools, I aim to leverage my technical and creative expertise to contribute to innovative digital solutions and deliver measurable value to the organization.

EDUCATION

Bachelor of Science in Entertainment and Multimedia Computing De La Salle Lipa, Inc. <i>Major in Digital Animation</i> 4+ years of experience	2022 - Present Lipa City, Philippines
---	---

PROFESSIONAL EXPERIENCE

Graphic Designer / Multimedia Intern <i>Remotely Philippines</i> - Collaborated with clients and creative teams in producing engaging visual content for digital platforms and marketing campaigns. - Created graphic design materials, social media content, and video edits aligned with brand identity and project goals. - Participated in 3D modeling and animation workflows to support multimedia and promotional projects. - Conducted lead gathering and organized creative assets and project data to streamline team operations. - Worked closely with senior creatives and project managers, gaining experience in branding, marketing strategies, and content production.	Jan 2026 - May 2026 Philippines
